

YUVASHREE D

Full Stack Developer – Python & AI/ML

Bangalore, India | 6385694779 | yuvashreedhanasekaren@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Python Full Stack Developer and AI/ML practitioner with hands-on experience building Django and Flask web applications, REST APIs, and AI-based systems using NLP and OpenCV. Delivered seven end-to-end projects covering authentication, database design, and deployment (Render, PythonAnywhere, Netlify). Currently pursuing M.Tech in Artificial Intelligence; seeking a Full Stack Developer / AI Engineer role to apply backend, frontend, and machine learning skills to production systems.

Technical Skills

Languages: Python, JavaScript, C, C++

Backend & APIs: Django, Flask, REST API, JSON, CRUD Operations, Authentication & Authorization

Frontend: HTML5, CSS3, JavaScript, React JS, Responsive Web Design

Databases: MySQL, MongoDB, Database Design & Modeling

AI / Machine Learning: Artificial Intelligence, Machine Learning, Natural Language Processing (NLP), Computer Vision (OpenCV)

Tools & Platforms: Git, GitHub, VS Code, PyCharm, Figma, Render, PythonAnywhere, Netlify

Data & Analytics: Power BI, MS Excel, Data Analysis

Practices: SDLC, Agile/Scrum, Version Control, Debugging, Problem Solving, Team Collaboration

Internship Experience

AI with Python Intern – Vlog Innovations

June 2025 – July 2025

- Built Python computer-vision applications for face detection, QR code generation, and voice-based modules using OpenCV and PyCharm/VS Code.

Python Development Intern – Vlog Innovations

March 2024 – April 2024

- Developed a password generator and a banking system application in Python, implementing core logic, input validation, and data handling.

Projects

AI-Powered Real-Time Video Translation

Python, NLP, Flask

- Built a multilingual video translation system supporting 4+ languages, converting spoken content into translated subtitles using speech recognition and NLP pipelines.

Smart Accident Monitoring System

Python, AI, IoT

- Designed an AI and IoT-based accident detection system that identifies road accidents in real time and triggers emergency alerts.

Employee Management System

Django, MySQL – Deployed on Render

- Developed a full-stack employee management application with a relational schema of 6+ tables, featuring authentication and complete CRUD operations.

Travel Booking Website

Django, HTML, CSS

- Built a travel booking platform with user authentication, dynamic forms, and an end-to-end booking workflow backed by a relational database.

FunQuiz – Interactive Quiz Web App

Django, HTML, CSS

- Created a category-based quiz application with authentication, session-based scoring, and dynamic result generation.

To-Do List Application

Django, MySQL – Deployed on PythonAnywhere

- Developed a task management app with authentication, persistent database storage, and status tracking through a responsive interface.

Personal Portfolio Website

HTML, CSS, JavaScript – Deployed on Netlify

- Built and deployed a responsive portfolio site showcasing projects, skills, education, and certifications.

Education

M.Tech, Artificial Intelligence

Currently Pursuing

CMR University, Bangalore

B.Tech, Information Technology

2022 – 2026

Er. Perumal Manimekalai College of Engineering, Hosur (Affiliated to Anna University, Tamil Nadu)

CGPA: 8.05 – No History of Arrears

Higher Secondary Education, Sunbeam Matriculation Higher Secondary School

2020 (91%)

Certifications

Master in Python Programming | Machine Learning – NPTEL | Basics of Data Analysis | UI/UX Design | Typewriting – Distinction Level

Symposiums & Workshops

6G Technology – PSV College of Engineering, Krishnagiri | Cloud Computing – Government College of Engineering, Bargur | 6G Technology – PMC College of Engineering, Hosur | Blockchain Technology – PMC College of Engineering, Hosur
