PROFESSIONAL SUMMARY

AI and Python Full Stack Developer with hands-on experience in Python, Django, Flask, web application development, REST APIs, and AI-based systems. Developed multiple real-world projects including multilingual video translation, smart accident monitoring, employee management, and web-based applications. Currently pursuing an M.Tech in Artificial Intelligence, with a strong interest in Artificial Intelligence, Machine Learning, backend development, and practical software solutions.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C, C++

Backend Development: Django, Flask, REST API, JSON, CRUD Operations, Authentication Systems

Frontend Development: HTML5, CSS3, JavaScript, React JS, Responsive UI Design

Database Management: MySQL, MongoDB, Database Design

AI & Machine Learning: Artificial Intelligence, Machine Learning Basics, NLP, OpenCV

Tools & Platforms: Git, GitHub, VS Code, PyCharm, Figma, IDLE

Data & Analytics: Power BI, MS Excel, Data Analysis Basics

Soft Skills: Problem Solving, Quick Learning, Time Management, Team Collaboration, Adaptability

PROJECT EXPERIENCE

AI-Powered Real-Time Video Translation

- Developed a multilingual video translation system that converts spoken content into translated subtitles using speech recognition and NLP.
- Technologies: Python – NLP – Flask

Smart Accident Monitoring System

- Developed an AI and IoT-based accident detection system for identifying road accidents and generating emergency alerts.
- Technologies: Python – AI – IoT

Employee Management System

- Built a Django-based employee management application with authentication, CRUD operations, and database integration.
- Technologies: Django – MySQL
- Deployment: Render

Travel Booking Website

- Developed a Django-based travel booking application with authentication, forms, booking workflow, and database integration.
- Technologies: Django – HTML – CSS

FunQuiz Game

- Created an interactive quiz web application with category-based gameplay, authentication, session-based scoring, and dynamic results.
- Technologies: Django – HTML – CSS

To-Do List Application

- Developed a task management application with authentication, database storage, task status handling, and a responsive interface.
- Technologies: Django – MySQL
- Deployment: PythonAnywhere

Personal Portfolio Website

- Built a responsive personal portfolio website showcasing projects, technical skills, education, experience, certifications, and resume.
- Technologies: HTML – CSS – JavaScript
- Deployment: Netlify

INTERNSHIP EXPERIENCE

Vlog Innovations – AI with Python Intern

June 2025 – July 2025

- Developed Python-based applications involving face detection, QR code generation, and voice-related modules using OpenCV.
- Tools: Python – OpenCV – PyCharm – VS Code

Vlog Innovations – Python Development Intern

March 2024 – April 2024

- Developed Python applications including a password generator and banking system.
- Tools: Python – IDLE – PyCharm

EDUCATION

M.Tech – Artificial Intelligence

Currently Pursuing

CMR University, Bangalore

B.Tech – Information Technology

2022 – 2026

Er. Perumal Manimekalai College of Engineering, Hosur

Affiliated to Anna University, Tamil Nadu

CGPA: 8.05, **No History of Arrears**

Sunbeam Matriculation Higher Secondary School

Percentage: 91% (2020)

CERTIFICATIONS

- Master in Python Programming
- Machine Learning – NPTEL
- Basics of Data Analysis
- UI/UX Design
- Typewriting – Distinction Level

SYMPOSIUM

- 6G Technology – PSV College of Engineering, Krishnagiri
- Cloud Computing – Government College of Engineering, Bargur
- 6G Technology – PMC College of Engineering, Hosur
- Blockchain Technology – PMC College of Engineering, Hosur
